

RE: Aide's First Steps - Primeros Pasos

To Whom It May Concern:

Our daughter has been enrolled in daycare at Aide's Primeros Pasos for over a year now, and we honestly could not be happier! The level of care she receives exceeds that of other better-known centers at a much more affordable price.

From the first time our daughter walked into Aide's home it was obvious how comfortable she was. It did not take long at all for our toddler to start reciting her friends names and telling us all about the daily activities she was doing. Then one day, out of the blue, she counted to ten all by herself. We didn't even know she could count past three! She is also being exposed to Spanish and understands directions very well in both languages.

Aide's Primeros Pasos is a warm, comfortable environment where all the kids are active all day. They do arts and crafts, story time, and get plenty of exercise outside. Our daughter takes naps there every day and is still worn out by the time she gets home! She is also fed a well-balanced diet, which is extremely important to us as we strive to raise a family of healthy eaters.

I would highly recommend Aide's Primeros Pasos to any parent looking for daycare in the Sacramento area. It is a great service at a great value, and we are so pleased with Aide and Jose that we will be sending our son there too!

Sincerely,

Justin and Mary Rose Parsons

Sacramento, CA
